

Touch of Class Project

The Touch of Class Project is practical way for small groups to impact the life of an “At-risk” child. Although the project is geared towards educational and Sunday school classes, this project is an ideal way to engage children, youth and adults in the fight against human trafficking in Moldova. The project will depend on the monthly donations of our ministry partners.

*All Funds designated for the Touch of Class Project will go directly to meet the needs of “At-risk” children. They will not be used for other projects, administrative or other expenses. All funds directed to the Touch of Class Project will be appropriated to the children in our care through our ministry partners in Moldova to ensure the integrity and accountability of the ministry.

Fund Raising

How will your group raise the money? Crossroads Compassion Project will leave that up to you! We are curious to see the creative ways in which our ministry partners will raise money for The Touch of Class Project. We would also like to hear from your group. Tell us what you are doing. We may even feature your group on our website to share your creative ways to raise money as a way to inspire others and maybe even promote a little “Healthy Competition”.
